## Parking and shuttling

*Please note, there will be no parking available at Tweed Green itself.*

Car parking in Peebles – Edinburgh Road Car Park EH45 8AY and Haylodge Car Park, Neidpath Road EH45 8NN are the advised parking for event entrants.

## There is NO shuttling on Race Day

Anyone shuttling/using vehicle transport during the race on Sunday will be instantly disqualified and not permitted to start any further stages.

You can drive to Innerleithen for practice on Friday and Saturday, but on Race Day you must ride the entire course. Park at the Red Bull Car Park or Memorial Hall Car Park (Leithen Road). Do not park on Traquair Road near residential areas please!

Please be courteous on the Tweed Valley Cycle Path, this is popular with families and walkers – they have right of way.

Please note: the forests will be busy as it's a weekend – please be courteous to other forest users, walkers and riders at all times. Transition sections, between the race stages, are all open to the public for riding as usual.

Watch out for any specific trail use info in the course update.

**Please do not ride on the pavements in Innerleithen at any time.**

## Accommodation and local facilities

Have a look at the accommodation page on our website [www.tweedlove.com](http://www.tweedlove.com) if you are looking for somewhere to stay. We're very grateful to Macdonald Cardrona hotel for being our official accommodation partner – so they should be your first choice for somewhere to stay!

**MACDONALD**  
CARDRONA HOTEL  
GOLF & SPA

## Safety

You must ride safely, in control and within the limits of your ability at all times – this includes when overtaking. **HELMETS MUST BE WORN & FASTENED AT ALL TIMES WHILE YOU ARE RIDING YOUR BIKE.** Any rider failing to comply with this will be disqualified.

On practice day, while inspecting the tracks, **DO NOT** stop in the middle of the track. Make sure you and your bike are not causing an obstruction or danger.

Trails used for the race stages are closed to the public for both practice and race days. However, please remain vigilant in case someone strays onto the course who shouldn't be there - particularly on practice day.

## Head injuries

There's increasing awareness of the big problems surrounding head injuries, so we have new measures in place. Race marshals and riders will all be expected to play their part in looking out for head injury incidents, and if following a crash anyone is suspected of a bad head knock they may be asked to pause until they can be assessed.

## Here's a short guidance:

Visible signs of concussion for riders/riding buddies/support staff.

The presence or development of any one or more of the following visible signs may indicate a concussion injury has occurred. If concussion is confirmed or suspected the rider should stop riding/racing immediately and not return to riding for the rest of that day.

- Changing level of consciousness or responsiveness
- Slow to get up after a direct or indirect hit to the head
- Unsteady on feet/ balance problems or falling over/ incoordination
- Grabbing/clutching of head
- Dazed, blank or vacant look
- Obvious facial injury and/or head trauma
- Disorientation or confusion and an inability to respond appropriately to questions

## First aid

On all three days, medical support will be in place. There will be mobile units on the hill, as well as a static First Aid station at Event HQ/ Start & Finish area.

If you come across an injured rider – help if you can but let the nearest marshal know as soon as possible and we'll get help to them. At any point if you need assistance, please call Event HQ on 07496 871220.

If you need assistance there's a small injuries unit at Hay Lodge Medical Centre in Peebles EH45 8JG. The nearest A&E is at Borders General Hospital in Melrose.

In case of emergency, always call 999.

Please note: on practice day, take it easy on the trails, get familiar with the course, but save the hard charging for race day.

## Number boards

Every rider will get a number board. Number boards must be fixed on the handlebars (we'll provide the zip ties) and must be readable throughout the competition.

Medical conditions and emergency contact details must be completed on the reverse of the number board (make sure you have these details with you!).

No rider may use another's rider's event number.

## Timing / seeding

Due to Covid-19 protocols, you cannot change the start times sent out to you on Wednesday 15 September. We hope you understand.

At Registration you will be given a sticker showing your start times and the times when you need to be at stage starts, which must be attached to your bike (top tube).

### SEEDED RIDERS:

Seeded riders have pre-set start times for every stage of the race and face penalties if they miss their race or stage start times. Being seeded means you will have much less chance of encountering traffic while on the race course, and less likelihood of queuing at stage starts.

Seeding is based on previous results in both our and other events. Given the lack of racing over many recent months, accurate seeding is more challenging than ever.

Rider Seeding List is published on event webpage:  
<https://tweedlove.com/events/pirelli-tenduro/>

Penalties for late or missed starts:

- Up to 5 minutes late = 1 minute penalty • 5+ minutes late = 5 minute penalty
- 30+ minutes late = DSQ

### NON-SEEDED RIDERS:

If you have told us you wanted to ride with your mate, we have tried our very best to put your timings together. You can ride with your friends as long as you keep a steady pace round the entire course.

You must finish the complete course within 5h 15min. This time limit allows lots of time for stops and mechanicals etc., but you will be faster than this if you stick to the times on your sticker.

## Timing card use

The event uses the SI Air system timing (no dibbing needed).

You will be given a timing chip, which you must use throughout the race. **YOU MUST HAND IT IN AGAIN AT THE END TO GET YOUR TIMES.**

Timing chips should be worn on your right wrist.

### PLEASE NOTE:

Stay away from timing beacons around stage starts and finishes, as your timing chip is a sensitive piece of equipment, and this can lead to false timing recording. All timing beacons will have taped exclusion zones around them, so stay out of these sterile areas at all times.

## Start marshals

It's very important that you try to keep moving efficiently round the course – if everyone keeps to their stage start times, there should be very little queuing at stage starts. You must follow all marshal instructions.

## Important Notes

- There is enough slack in the overall time allowance for the whole course that an averagely fit and fast rider will have spare time for food stops and will not have to totally beast themselves to get round the course.
- However, delays caused by accidents or other circumstances will be taken into consideration, but these **MUST BE NOTIFIED TO MARSHALS** during the event – not just at the finish.
- Your timing chip will record all your stage start and finish times.
- You can only race each stage once.
- All riders' times are logged and available at the finish. On handing in your timing chip, you will be given a print-out of all your times.
- If you have unforeseen delays or issues which will affect your ability to complete the course in time, please notify a marshal or race official.
- If the race is stopped or delayed for any reason, timings will be adjusted accordingly.
- A fine of £60 will be applied if you do not return your timing card – and you won't get your times!
- A sweeper will go round the course at the end.
- If you retire for any reason, please inform an event official.
- All results will be posted on the event website asap after the event.

## Food and water

Feed stations will be marked on your route map. There will be water gels and snack bars from High Five and awesome, locally baked fresh cake from Traquair Café based Wild Dining.

## Feed station

The feed and water station (race day only) will be passed on the way to stages 2, 3 and 4.

All riders should also ensure that they have enough provisions for the event, which will be a proper day out in the Scottish hills, so pack accordingly.

## Mechanical Support

Once on course no team mechanical assistance is permitted. Chain Reaction Cycles will provide neutral mechanical assistance at the event HQ.

## Clothing and kit

Please make sure that you are well prepared for a day out on the hills. Remember you'll be out exposed to the elements for several hours and must be prepared for delays if required.

### You must have the following:

- Helmet (Open or full-face) **HELMETS MUST BE WORN & FASTENED AT ALL TIMES WHILE YOU ARE RIDING YOUR BIKE.**
- Mobile Phone (charged)
- Bar end plugs
- Face mask

### Strongly Recommended:

- Knee pads
- Elbow pads
- Gloves
- Eye protection (glasses or goggles)
- Front mudguard
- Full body cover and waterproof jacket if conditions cold/wet
- Suitable backpack
- Emergency blanket
- Innertubes/puncture repair kit
- Multi tool
- Basic, well maintained first aid kit
- Food and fluids

## Environment

Part of why we run events is to celebrate the beautiful natural Tweed Valley environment we're proud to call home, so here's just a few things you can do to help us protect it:

- Use correct bins provided.
- No tear-offs.
- Wash bikes to prevent spread of larch disease.
- 'Leave no trace' and follow the countryside code.
- Don't leave tubes and cable ties on the trails.
- DO NOT DROP GEL OR NUTRITION WRAPPERS!

## Cameras

We acknowledge that many racers decide to use an onboard camera such as a GoPro to record events. It is the policy to allow for cameras to be worn on either bike attachments, chest and body mounted positions or on protectives. However, camera equipment must not be attached directly onto the main body of the helmet, but can be attached to the visor. In using the equipment, the rider is fully aware and conscious of the potential risks that are then exposed to them as a result. This concerns incidents of injury, accidents or damage to equipment.

## Conduct

- Remember Covid rules (see more below).
- Keep your distance – 2m.
- Sanitise your hands often.
- Face covering in queues.
- Keep to your time schedule.
- Be polite to other riders, marshals and staff.
- Use correct warnings on trails and roads: e.g. "Rider on your right".
- Patience and queueing in an orderly fashion.
- Let faster riders pass.
- Course cutters will be disqualified and shamed. And we'll make a point of telling your mum.
- Follow the highway code on all roads.
- Riders are responsible for their own safety, the safety of those around you and the condition of personal equipment.

## Course practice

**Course practice is on Friday 17 and Saturday 18 September. There is no practice for Stage 5.**

This practice is not fully marshalled, though event staff and marshals will be present at locations throughout the course. We strongly recommend that all riders practice each stage and allow themselves time to look at all features on route prior to the event. As above, all course hazards, such as drop-offs etc. will be clearly marked with double arrows, or for more severe hazards, triple arrows.

Walk technical features before you ride them. Be aware wet rock can be slippery. Exposed roots will become a familiar sight during the weekend, and yes, they may be slippery too! Take care and ride within your abilities. You may lose a lot of time and break your bike if you crash, so a steady but upright run might be the best way to go. Ride safely at all times.

**No e-bikes.**

## Spectators

Spectators are now allowed to come along to the race! Please ensure they adhere to current Covid-19 guidelines and listen to event officials and course marshals at all times.

Total time over the race stages will be used to work out who has won. All stages will be included.

1st, 2nd and 3rd fastest in each of the categories will receive a prize.

In the event of a tie, the highest placed rider in the final stage of the race will be awarded a higher placing.

## Course marking

The course will be marked with tape throughout.

Some sections where there are no optional lines or crossings will be left relatively free of tape. All junctions or crossings will be clearly taped off. Signage will be in place as required.

Transitions will be marked with a combination of arrows, tags of course tape and other markers beside the road or trail.

All hazards on the course will be identified with warning signs.

## Double Downward Arrow

This indicates a steep or technical section/trail hazard.

## Triple Downward Arrow

This indicates the most difficult or most severe technical sections on the course.

## Gates

**IMPORTANT:** On some more open sections, tape 'gates' will be used. This will involve a set of taped posts on either side of the track, which form a gate. Anywhere there is tape on both sides of the track, the rider must pass between the two sides of the gate. Failure to do so will be regarded as course-cutting and lead to disqualification.

## What tyres?

Keep an eye on weather on the days running up to the event, but there are steep natural, loose, muddy and rooty trails involved – so choose tyres according to the level of grip you want. Hardpack, fire road sprints and climbs are in there too.

Pirelli Scorpion mountain bike tyres are available in a range of different tread patterns and sidewalls to suit a range of conditions and riding style. The Scorpion Enduro features Pirelli's HardWALL casing that gives unparalleled puncture protection and support for riders pushing their bikes to the limits. For lighter riders or those looking for a more all-round tyre, the Pirelli Scorpion Trail provides a lighter, more supple carcass whilst keeping the large, widely spaced tread of the Enduro S.

**Scorpion Enduro S:** Designed for riding in softer conditions, the taller centre and side knobs are widely spaced and designed to cut into soft terrain and muddy conditions when maximum grip is key. Suitable for use on both the front and back, and available in 27.5" and 29", in 2.4 and 2.6" widths.

**Scorpion Enduro R:** The rear-specific tread pattern pairs well with the Scorpion S when conditions are drier, and riders are looking for a faster rolling rear tyre with excellent braking characteristics thanks to its ramped, medium profile centre tread. Available in 27.5" and 29", in 2.4 and 2.6" widths

- Riders must be courteous and aware of other cyclists around you. Slower riders must allow faster riders to pass by pulling over at a suitable place to enable a safe overtaking move. Riders catching the rider in front must clearly (and politely) indicate which side they wish to pass on.

This agreement starts with the entry. The organisation reserves the right to make any necessary changes or even to cancel the whole event according to safety problems at any time, official orders, government laws or other unforeseen events.

The organisers will endeavour to give all entrants a time derived from the electronic timing chip system provided. However, they are not responsible in the unlikely event of fault in the electronic timing system.

## Protest

Protests against the result or disqualifications should be addressed to the Event Organisers within the 30 minutes following the end of the race.

## Waiver of liability

Every rider understands and admits that his participation in the event is voluntary. He/she assumes full responsibility for any injuries or damages from his/her participation in, or practice for, the event.

He/she recognises and understands that mountain biking and the activities associated with this event may be hazardous, that his/her participation is solely at his/her own risk and that he/she assumes full responsibility for any resulting injuries and damages that may occur.

Every rider affirms that he/she is in good health. He/she declares that he/she is physically fit and capable to participate in the event. Every rider understands it can be a strenuous day out with significant amounts of climbing and distance to be cycled in order to complete the course.

Every rider has to acknowledge that he/she has read and understand this entire waiver of liability and agrees to be legally bound by it.

## Look after our forest

You must wash your bike and tyres thoroughly after riding, to reduce the risk of forest diseases, which currently (and seriously) threaten larch, ash and other species throughout the UK. Thanks for your help.

The bike wash at TweedLove is free for this reason — please use it! More info here: <https://scotland.forestry.gov.uk/keep-it-clean>
